

PCRx Program

Health Plan Members,

There has been a dramatic increases in the cost of employer sponsored health plans due to the increased use of specialty medications. Specialty medications are high-cost medications that are often used to treat complex, chronic conditions and may require special handling and administration.

Effective January 1, 2024, your employer sponsored health plan is excluding Specialty Medications. BPA will be utilizing Point C Rx Solutions to help you obtain specialty medications that are no longer covered under your health plan. Point C Rx services are designed to result in substantial savings and help avoid increases in medical costs for both you and your employer.

If you are prescribed a specialty medication, you can proactively reach out to the Care Management team at (872) 265 - 4700 to get the process started or complete and return the enclosed form. Point C Rx Care Management will contact you, review the plan and gather information needed to obtain your Specialty Medication.

What to expect?

If you are currently taking a specialty medication.

- You will receive a call from a member of our Care Management Team
- These are Registered Nurses who specialize in Care Management.
- Your Care Management Nurse will gather information from you such as: Prescription Medications, day-supply on hand and number of refills, prescribing physicians and Medical treatment plans, diagnosis, treating physicians.
- The Care Manager will review the program details with you and may require some additional
- personal information in order to get you started.

It can take 3 to 8 weeks to receive your medication through our program.

- During this time your Care Manager will ensure that you receive your medication with no disruption.
- You will not go without your medication once you are engaged in this program.
- You will not miss any doses moving to this program.
- While participating in this program the prescriptions obtained through this program have a \$0 copay.

It is very important that you respond timely to all calls, mail, and email from your Care Manager, failure to respond timely can delay your medication delivery.

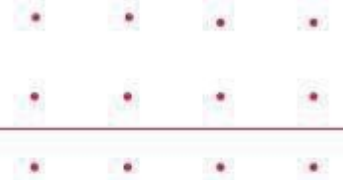

If you are prescribed a new specialty medication.

- If you know your doctor prescribed a new specialty medication, you can reach out to our Care Management Team at the number or email below.
- If you go to the pharmacy and your prescription is denied as "Specialty Drugs are Not Covered" or "Cost Exceeds Plan Maximum" don't be alarmed.
- Our Care Managers receive daily reports for all pharmacy specialty medication rejections, they will be reaching out to you;
- Or you can reach out to the Care Management Team at the number or email below.
